Name Compa	iny
Address (Street, City, State, Zip)	
Phone Fax	E-Mail
Please provide me with a proposal based upon the attached sketch and the following information:	
Project Location	Exterior Walls
Zip Code:	$\square$ North $\square$ East $\square$ South $\square$ West
	Subfloor
<b>Application</b> (Choose a voltage: ○120V ○240V)	☐ Slab below grade
○ Floor Warming	☐ Slab on grade
○ Total Heat - To ensure a proper design	☐ Plywood on joists
please provide us with the approximate	Finished Floor
R-values (or a description) of:	☐ Tile / Natural Stone
Floor:	Resilient (Vinyl, Linoleum)
☐ Basement ☐ R-value	☐ Carpet (Do NOT use "Rebond" padding)
	Hardwood / Bamboo *
☐ 1st Floor ☐ R-value	Laminate / Engineered Flooring * * Indicate direction of planks:
☐ 2 <sub>nd</sub> Floor	☐ North to South
Ceiling (Htft.) R-value	☐ East to West
Walls: R-value	* Indicate direction of joists:
	<ul><li>☐ North to South</li><li>☐ East to West</li></ul>
Windows: ☐ Single ☐ Double ☐ Low-E	☐ Under floor between joists **
□ Siligle □ Double □ Low-L	** Indicate joists direction, width (center to
Total Glass Areasq. ft.	center), number of runs and length
7 October 27 (1905)	☐ Other (Specify)
Type of Construction	Thermal Insulation
☐ Existing House, minimum insulation	With radiant heating it is important to
Existing House, upgraded insulation have slab edge <u>perimeter</u> insulation.	
☐ New House, standard insulation • A higher R-value is required <u>under</u> the	
☐ Sunroom - all glass walls: heating elements as opposed to over	
$\Box$ 1 $\Box$ 2 $\Box$ 3 $\Box$ 4	with a ratio of 4:1.

Upon receipt of your quote request, our Quotation Department will generate a CAD layout of the system and a material quote. Please allow 3-7 business days for the generation and return of this proposal. If you have any questions, do not hesitate to contact us. Thank you!

Company:	
Project Name:	
Room Type:	

## **Sketch Instructions**

- Make a sketch of the overall room and indicate the room dimensions. Then, locate on the sketch any fixed items such as appliances, cabinetry, toilets, tubs, showers, forced air registers, doors, windows, etc. Dimension the fixed items based upon their size and shape at the floor, such as at recessed kick plates on cabinetry.
- Do not provide localized dimensions of just the open floor area. Dimension the entire room and the fixed equipment, and our designers will be able to better optimize and size the system for you.
- For plank style flooring (hardwood, laminate, bamboo, etc.) indicate on the sketch the direction of the planks. For under floor between joists installation, indicate joists direction and width (center to center).
